

HOW OUR SCHOOL IS ECO FRIENDLY

OUR SCHOOL HAS GREEN GUARDIANS TO CLEAN ALL THE ROOMS, HALLWAYS, KITCHENS. AFTER THE SCHOOL DAY. THEY STAY AFTER SCHOOL HOUR TO CLEAN UP THE SCHOOL AND WE HAVE A LOST AND FOUND INCASE A STUDENT LOSES A ITEM.

THE COLÉGIO GUADALUPE SCHOOL, IS A ECO-FRIENDLY SCHOOL, HAVING PROGRAMS LIKE ECO-ESCOLAS RECOGNIZED AS ESCOLA AZUL, PROTECTING THE PORTUGUESE SEAS AND ANIMALS.

COLÉGIO GUADALUPE HAS SOME ACTIVITIES LIKE GOING TO THE BEACH TO PICK UP THE TRASH AND ALSO THE SCHOOL'S TRASH , COLÉGIO GUADALUPE ALSO HAVE RECYCLING BINS, SO THE TRASH DOESN'T GO TO THE SAME BIN.

PORTUGAL MEETS ITALY

A group of fourteen Italian students visit Portugal for one week for an Erasmus project in colégio Guadalupe and surroundings. A Portuguese journalist interviewed a few of them, let's see what they said.

THE WELCOMING

The Italian students were greeted by a choir of 4th graders playing cavaquinho (a typical Portuguese instrument). Then they were presented to 8th graders and they got to know each others and their cultures. Then they saw colegio Guadalupe and they found it interesting by its big open spaces and the many different activities.

The two groups of students lunched together and had some conversations.
The students say that Erasmus made them make some friends and improve their language.

BRINGING PEOPLE TOGETHER THROUGH EXPERIENCE

DIFFERENCE BETWEEN SCHOOLS

Colégio Guadalupe works with iPads and digital devices like boards. There are many open spaces and kindergarten is separated from middle schools and secondary.
The Italian school has less open spaces and mostly uses physical books. But like the Portuguese school they participate to many projects and activities as concerts.

ITALY X PORTUGAL

Italian Students meet Guadalupe's Students

Yesterday at around 10AM, the Italian students from Anagni arrived in Colégio Guadalupe, an International Private School in Verdizela. The 4th graders welcomed them by singing and playing the 'Cavaquinho'. They were introduced to the Principal Paula Gomes, who then talked to them about the Portuguese cuisine and culture and showed them the School Campus. Both Portuguese and Italian students participated in some Ice-Breaking activities. The music students played the song they had been working on for the past few months. The Portuguese students showed them around the school and they later had lunch together.

The language curriculum in Italy and in Portugal

In Italy, students get to choose if they want to learn English for 5 hours a week, or learn Spanish for 2 hours and English for 3. In Portugal, international students get 8 hours of English subjects and have to choose between 2 hours of Spanish or 2 hours of French. The portuguese students study Maths and Science in two different languages, Portuguese and English. There is also a national program, where students don't learn as much English and leave school earlier.

ITALIAN STUDENTS ARRIVAL

THE FIRST MEETING BETWEEN THE ITALIAN STUDENTS AND THE PORTUGUESE STUDENTS

Yesterday, May 12th, the first meeting between the Italian and Portuguese students took place at Guadalupe School for the Erasmus project.

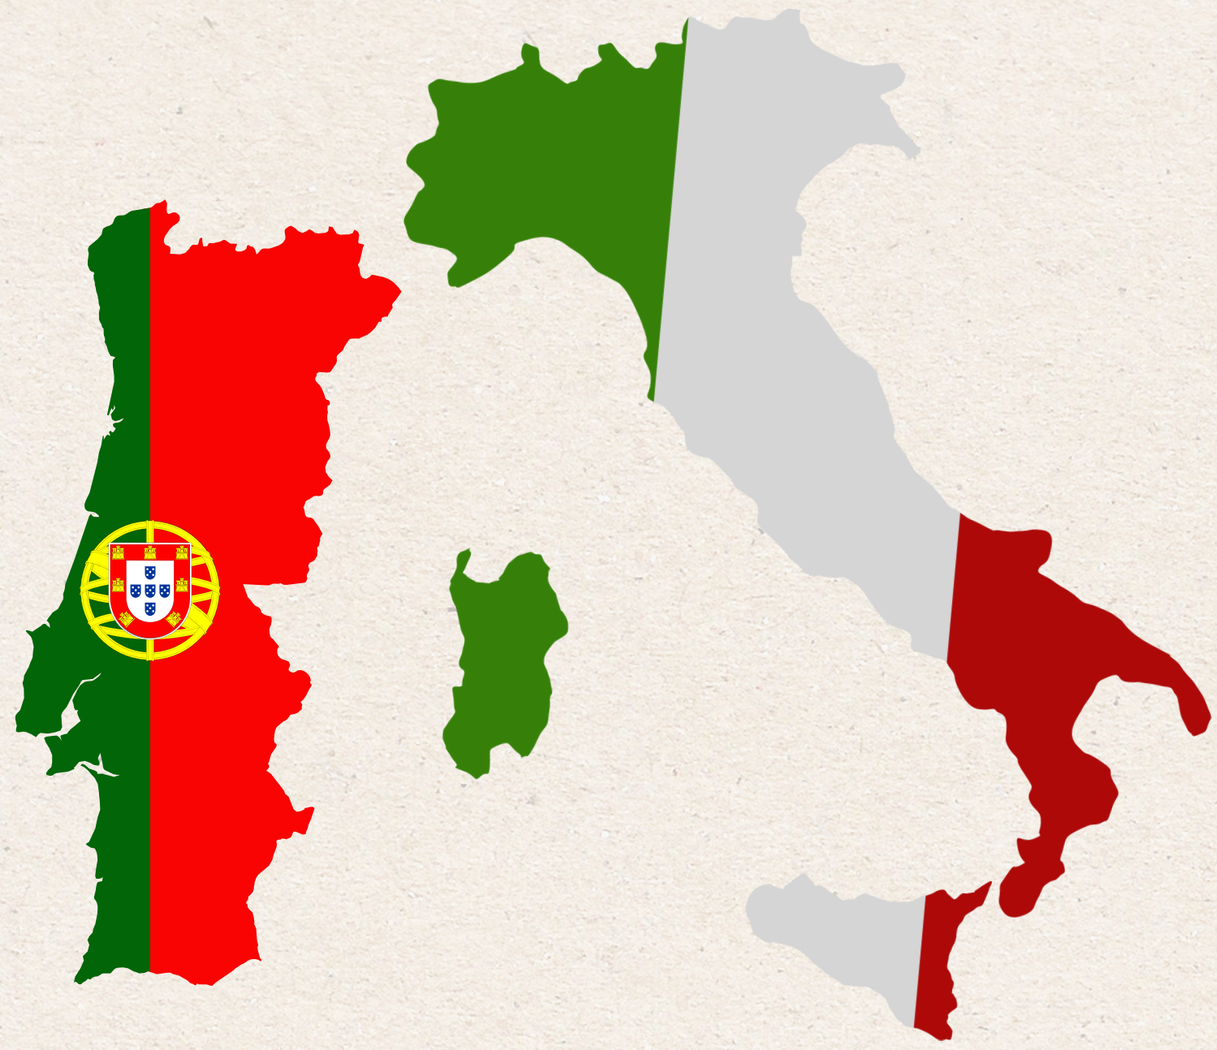

The Italian 8th-grade students from IC2 Anagni first met the school's pedagogical director, who welcomed them with a musical and dance performance by a 4th-grade class.

After that, they met the Portuguese students from an 8th-grade class at Guadalupe School and shared traditions from their countries with each other.

Later, the 8th-grade students presented their musical with a short performance.

Finally, the students visited the different facilities around the school.

GUADAL ECO SCHOOL

Colégio Guadalupe, located in Verdizela, south of Lisbon, is a private school that welcomes students from kindergarten through high school. The school actively participates in the Eco-Escolas program, an initiative that encourages schools to take concrete action in environmental education and sustainable development. The students recycle their waste, do many projects where they reuse things, and sometimes go to the beach or forest to collect waste.

Breaking News:

EXCHANGE STUDENTS

ITALIAN STUDENTS ARRIVED TO PORTUGAL, FROM IC2ANAGNI, FOR A WEEK TO COLEGIO GUADALUPE TO COMPARE CULTURES, LIKINGS, TRADITIONS AND LEARN ABOUT THEIR DIFFERENCES.

DIFFERENCES

THEIR SCHOOL IN ANAGNI, WHICH IS A PUBLIC SCHOOL, IS SMALL, NATIONAL AND HAS ONLY ONE GYM

MEANWHILE COLÉGIO GUADALUPE IS A PRIVATE SCHOOL, REALLY BIG, ITS AN INTERNATIONAL SCHOOL AND HAS MORE THAN ONE GYM.

IC2ANAGNI IS ECO FRIENDLY JUST LIKE COLEGIO GUADALUPE. IC2ANAGNI USES SOLAR PANELS, SIMILAR TO COLÉGIO GUADALUPE. THE LITTLE KIDS SOMETIMES GO TO THE BEACHES WITH THEIR GUARDIANS AND THEY PICK UP WASTE AND LITTER IMPROPERLY DISPOSED OF ON THE BEACH.
